Why ***SHAHID?***

- 6+ years of front-end development experience in both the corporate sector and start-ups with a passion for developing interactive and user-friendly web applications
- Full understanding of the entire web development process (design, development, deployment)
- Excellent understanding of browser rendering process and code optimization
- Confident working within an agile delivery team
- Strong teamwork skills with a problem-solving can-do attitude
- Continuously looking to discover, evaluate, and implement new technologies to maximize development efficiency.

TECHNICAL SKILLS:

HTML5 / CSS3 / JavaScript (Vanilla/ES6) / SCSS / Bootstrap / Tailwind CSS / Bulma / PHP / MySQL /
WordPress / Shopify / Gulp / Git (GitHub/GitLab/Bitbucket) / Jira / Trello / Asana

WORK HISTORY:

Systems Limited – Islamabad, Pakistan

Working as “**Development Consultant/Frontend Dev.**”, March 2021 – Present

- Revamped AtClose Portal as a lead front-end dev which is a complex end-to-end Cloud Based Title Closing Software
- Helped the team of Devs in the front-end development of Balochistan Govt’s Land & Revenue Management Information System
- Worked with an amazing team of Devs in building Dubai’s Department of Health Portal

Coalition Technologies – Remote

Worked as “**Shopify/WordPress Developer**”, April 2021 – November 2021

- Developed Shopify themes from front-end to back-end (Liquid) along with the customization of existing huge Store themes
- Created a WordPress theme for a Dental client from scratch where I’ve developed all the theme components, theme options with Customizer API and ACF for custom meta fields

iPlex PVT. Limited - Islamabad, Pakistan

Working as “**Sr. Front-end Developer (Shopify)**”, November 2020 – March 2021

- Constant communication with other teams in different departments to understand their business requirements to develop different landing pages and their deployments
- Ensuring there’s a clear establishment of what can be created within what timeframe

- Making testing plans and troubleshooting issues related to the eCommerce stores
- R&D on different software programs along with maintaining the technical documentation

Immentia SMC Private Ltd – Islamabad, Pakistan

Working as “**Front-end Developer**”, September 2019 – February 2021

- Worked closely with UI designers and Devs to develop different websites
- Converted numbers of mock-ups into HTML with full responsiveness and clean commented code
- Assisted the development team in the development of the newly implemented internal portal
- Added numerous new features and bug fixes on the front-end of different other projects

Freelance/Remote

Working as “**Front-end Developer**”, September 2016 – November 2018

- Worked with many clients to build different kinds of websites in different front-end workflows. In some, I’ve used frameworks like Bootstrap, Foundation, Skelton and some were custom where I’ve used LESS/SCSS, CSS Flexbox & CSS Grid
- Used different JS plugins/libraries like Masonry, Lightboxes, Carousels and did custom Vanilla JS work on different components like Accordions, Popups, Tabs, etc
- Interacted with the different APIs to get the data and show it as per the client’s requirements

Fliegen IT Solutions – Islamabad, Pakistan

Working as “**Front-end Dev. (Intern)**”, May 2016 – July 2016

- Gained hands-on experience in converting designs to HTML/CSS and different CSS frameworks
- Collaborated with the team of developers on numerous projects
